CHI SIAMO

Selint Srl, fondata nel 1990 da Roberto MAZZA, attuale Presidente e AD, fornisce prodotti, servizi, sistemi e soluzioni in ambito elettronico

Principali settori di attività

- Aerospazio & Difesa
- Automotive
- Telecomunicazioni & Broadcast
- Ricerca e Sviluppo
- Produzione ed Industria
- Navale
- Sicurezza COMSEC

PRODOTTI E SERVIZI

- Situation Awareness
- Simulazione e Generazione di Scenari – GNSS Simulation
- Sistemi di comunicazione satellitari e terrestri
- PNT – Positioning, Navigation and Timing
- Network, ICT & Wireless – LTE, IoT, 5G
- Antenne Shelter e sistemi d'antenna
- Amplificatori di Potenza
- Automazione e Test Equipment
- Sistemi per qualifiche Ambientali e EMC
- EMF – Monitoraggio campi EM
- Sistemi di alimentazione
- Sistemi per la Sicurezza, schermature, COMSEC e TEMPEST
- T&M – Test & Measurement
- Componenti RF

COMPONENTI RF

Quantic PMI (Planar Monlytics) è stata fondata dal Dr. Ashok (Ash) Gorwara l'11 novembre 1989 e presto si è affermata come fornitore leader di componenti e sottosistemi a microonde a radiofrequenza personalizzati e ad alta affidabilità. Offrendo prestazioni standard di settore per applicazioni mission-critical nei settori militare, delle comunicazioni, commerciale e di consumo, Quantic PMI continua ad espandere il proprio portafoglio di componenti, moduli e sottosistemi ibridi MIC/MMIC all'avanguardia. E come azienda Quantic, facciamo parte di un ecosistema ingegneristico esteso e di una potente catena di fornitura, definendo un vantaggio competitivo che si estende a ogni cliente Quantic PMI.

RFX Group
Incorporating Laptech Precision

A specialist manufacturer of quartz crystals and oscillators

RFX designs and manufactures innovative standard and bespoke precision OCXO, TCXO, VCXO and PLL oscillators from 1MHz to 2.4GHz and GPS synchronised precision OCXO modules from its modern factory based in Livingston, Scotland.

COMPONENTI RF

Specialty Areas of Expertise

OCXO

- Oven Controlled Crystal Oscillators
- Low Phase Noise Oscillators
- Miniature high performance Ovenized Oscillators
- Ultra-stable Double Ovens

TCXO

- Temperature Compensated Crystal Oscillators
- Ultra-stability

VCXO: Voltage Controlled Crystal Oscillators

XO: Crystal Clock Oscillators

Crystal and LC Filters

Tunable Filter Modules

Focus Applications

- SATCOM
- Mobile Communications
- Test Instrumentation

COMPONENTI RF

Miller MMIC è specializzata nella progettazione e produzione di semiconduttori RF. Sfruttando le tecnologie avanzate InP, GaN e GaAs, fornisce una gamma completa di prodotti adatti a molteplici applicazioni.
Miller MMIC fornisce soluzioni ottimizzate e all'avanguardia per applicazioni che si estendono fino a 100 GHz.

COMPONENTI RF

BroadWave Technologies è uno dei produttori leader di componenti coassiali RF e microonde.

Il nostro catalogo include:

Impedance Matching Pads;
DC blocks;
Feed Thru Terminations;
RF detectors;
Conduction and Convection Cooled Terminations;
Conduction and Convection Cooled Fixed Attenuators;
Power Dividers;
RF adapters;
Directional Couplers;
Manual Variable Attenuators;
Programmable Attenuators.

ADAPTERS (37)

DC BLOCKS (10)

DIRECTIONAL COUPLERS (15)

ELECTROMECHANICAL PROGRAMMABLE ATTENUATORS (4)

FEED THRU TERMINATIONS (29)

FIXED ATTENUATORS (146)

IMPEDANCE MATCHING PADS (88)

OPEN AND SHORT (9)

POWER DIVIDERS (76)

RF DETECTORS (23)

TERMINATIONS (163)

Millimeter Wave Products Inc.

Millimeter Wave Products Inc. (Mi-Wave) è un'azienda pluripremiata e leader mondiale nei prodotti a microonde e a onde millimetriche per applicazioni commerciali e militari. Situato a San Pietroburgo, Florida. MI-WAVE è un'azienda privata che fornisce prodotti, componenti e servizi personalizzati all'industria delle microonde e delle onde millimetriche. Mi-wave è riconosciuta come uno dei 10 principali fornitori di soluzioni di produzione.

Elmika

Millimeter Wave Measurement Instruments & Waveguide Components

SIGNAL GENERATOR
- Full or partial waveguide frequency bandwidth
- BWO source
- High output power
- GPIB, USB, RS-232 interfaces

SCALAR NETWORK ANALYZER
- Automated scalar measurements
- Full waveguide frequency bandwidth
- PC based
- ETHERNET interface

DIRECT READING ATTENUATOR
- High resolution
- High accuracy
- High flatness in full waveguide frequency band

Elmika Joint Stock Company was established in the 1993 as a former microwave division of Vilnius Scientific Research Institute of Radio Measurement Instruments.

Now “Elmika” is a research, development and manufacturing company, which works in the area of mm-wave and sub-mm wave (THz) measurement instruments.

We design and manufacture sweep and signal generators, scalar and vector network analyzers, power meters, direct reading attenuators, frequency measurement instruments.

"Elmika" also produces waveguides and waveguide components for measurement instruments and wireless applications.

- **Full waveguide bandwidth**
- **BWO source**
- **High output power**
- **GPIB, USB, RS-232 programmable**
